

HAGE, Dani

My family and I have lived in Karratha for over 10 years. I am a Ratepayer who bought in the 'Boom Time' and I understand the hardships of those now struggling with the down turn in prices.

I am the founder and President of the Karratha City Ratepayers and Residents Association. As your councillor I will listen and work for what is right and best for our community.

I have and will continue to fight against the cost born to ratepayers and business owners from the Underground Power Project. I will support a full investigation into PUPP.

I will continue to work towards a safer community and a reduction of crime in our town.

I have no agenda other than to see our town flourish and grow. I actively volunteer my time with the youth of Karratha so that we can have a better outlook for the future.
