

## City of Karratha - Karratha Ward - Councillor

### SMEATHERS, Evette

During my eight years on Council, Karratha has been transformed from mining town into a vibrant hub. Now to get more people to call Karratha home.

Facilities are important, but people make a place. I love being part of this community, having schooled, worked and raising our children here. I've chaired the Tambrey Primary Board for five years and Council's Audit Risk Committee for eight, and am involved in many arts, sports and community groups.

We must minimise FIFO, and support local business and tourism. An affordable, exciting place to live with opportunities created for work and education, so people don't outgrow Karratha.

I am a proven decision maker who acts with integrity, values good governance and has a positive vision for the future. With local knowledge, degree in politics and management experience, I can make a difference.

I would be honoured if you chose me to continue this journey.
