

City of Karratha - Dampier Ward - Councillor

EVANS, Georgia

During my 5 years living in Dampier, I have been fortunate to work and then volunteer, as President, for the Dampier Community Association. This has provided me the opportunity for many conversations with Dampier's residents about town development that showcases our natural assets and is environmentally and culturally sensitive.

I want to provide a strong voice for residents on the completion of the Dampier Townsite and Foreshore Enhancement Plan and building the Dampier Marina.

I stand for City funding that empowers community associations to deliver community projects and builds participation in local clubs and groups.

I would consider matters put before me as councillor with integrity, pragmatism and independence to ensure facilities and services are delivered that reflect the lifestyle and ambitions of the City of Karratha's residents. My husband and I have 3 children and are Dampier property owners. My professional background is in communications, advocacy and community development.
