

City of Karratha - Karratha Ward - Councillor

POPE, Julie

The city transition has taken its toll. We need to understand what community really means and make responsible decisions.

Council needs to show respect to residents. Provide a safe/affordable place to live. Where our kids have something to do, and local business does not suffer in the name of progress. Councillors should champion the needs of the people they represent. There shouldn't be any more missed opportunities. This is my platform for you.

We need to get back to grassroots local government. My background is 18yrs Australian Defence Force. I am the past President of our local RSL and now manager, I have worked in education/youth sector, with past representation on Karratha community and industry boards. I have lived in our great town for 17 years. I have what it takes to be an effective, proactive councillor. I will be your voice, our voice.
