

City of Karratha - Karratha Ward - Councillor

VANDENBERG, Robin

I have been a passionate member of the Pilbara community for over forty-five years during which time I have experienced all the Pilbara's economic highs and lows and bad weather events.

Like me, Karratha has also experienced its economic highs and lows. It's been my family home for the last forty years, a country town that has evolved and become in recent years, a much better place to work, live and play.

As an experienced long-term member of the Karratha council I am proud to have had the opportunity to contribute towards the shaping of Karratha and once again I am asking the local community to trust and support me.

I will continue to support any cost-effective opportunities that will benefit the local community and provide a quality of life that our ever increasing young and vibrant community would like to see.

I love where I live
