Subject: ICR186072 - RV.10 - Rate increase

To Whom It May Concern,

We are writing to express our strong objection to the proposed rate increases for City of Karratha rate payers. Not only has the property market been in steep decline over the last few years but rental values have also fallen significantly. The proposed structure of the rate increases is also unfair and the way in which the City has tried to “sell” the plan to rate payers is very misleading.

The City of Karratha should be doing everything they can to reduce the cost of living here, not increasing it. There are other ways for the City to increase revenue without directly affecting the families that choose to live here. Surely there can at least be a distinction between owner occupied dwellings and those that are not?

Sincerely
Noel and Catherine Howie
