RE: The Owners of the Ranges, Survey Strata Scheme 63931

To Whom It May Concern

I wish to advise that after consultation and review of the Development Application required for the temporary kitchen and mess (facilities) required for the Ranges Village we have consulted individual owners that have apartments along that side of the resort.

The owners are fully aware of the Ranges Village Development and the works required for this facility to be built and operational. They are aware of the requirements to facilitate the temporary kitchen & mess areas to be utilised during the construction period also. And accept the proposed timeframe required for this to be in place (approximately June 2025)

We, the Strata Company therefore do not have any objections to the application.

Kind regards,

Brenda French
