A message from City of Karratha

Mayor Daniel Scott

We celebrate Australia Day by taking a moment to reflect, respect, and celebrate our future as a community, and remembering that we are all part of the story. We are given the opportunity to stand together as a nation and be proud of all that makes us Australian.

During this day, we welcome new citizens, as well as recognise those individuals who support others selflessly. Those who volunteer first, who raise others up – these people form the backbones of our community who continue to give their time, energy, and expertise selflessly.

Our Community Awards feature three award categories to recognise these dedicated people: Citizen of the Year, Young Citizen of the Year, and Active Citizenship (for a group or event).

Each and every person or group nominated for one of these categories should be incredibly proud, knowing that their community recognises and appreciates their commitment. I want to thank everyone who nominated others for these Community Awards, it is important to acknowledge the people in our community who are going above and beyond. Without your support this simply would not happen.

I must also thank our generous category sponsors; Rio Tinto and Pilbara Ports, it is a true pleasure to have them on board.

I would like to congratulate all of our nominees and winners for the City of Karratha Community Awards, as well as our 30 new citizens. I am very excited to see so many outstanding residents living here in Karratha, ready to lead our community into the future.

I also encourage everyone to come down to our Australia Day Celebration tonight, kicking off in Dampier at Hampton Oval from 6pm and featuring free family fun, live entertainment, market stalls, food trucks and fireworks from 8.15pm.

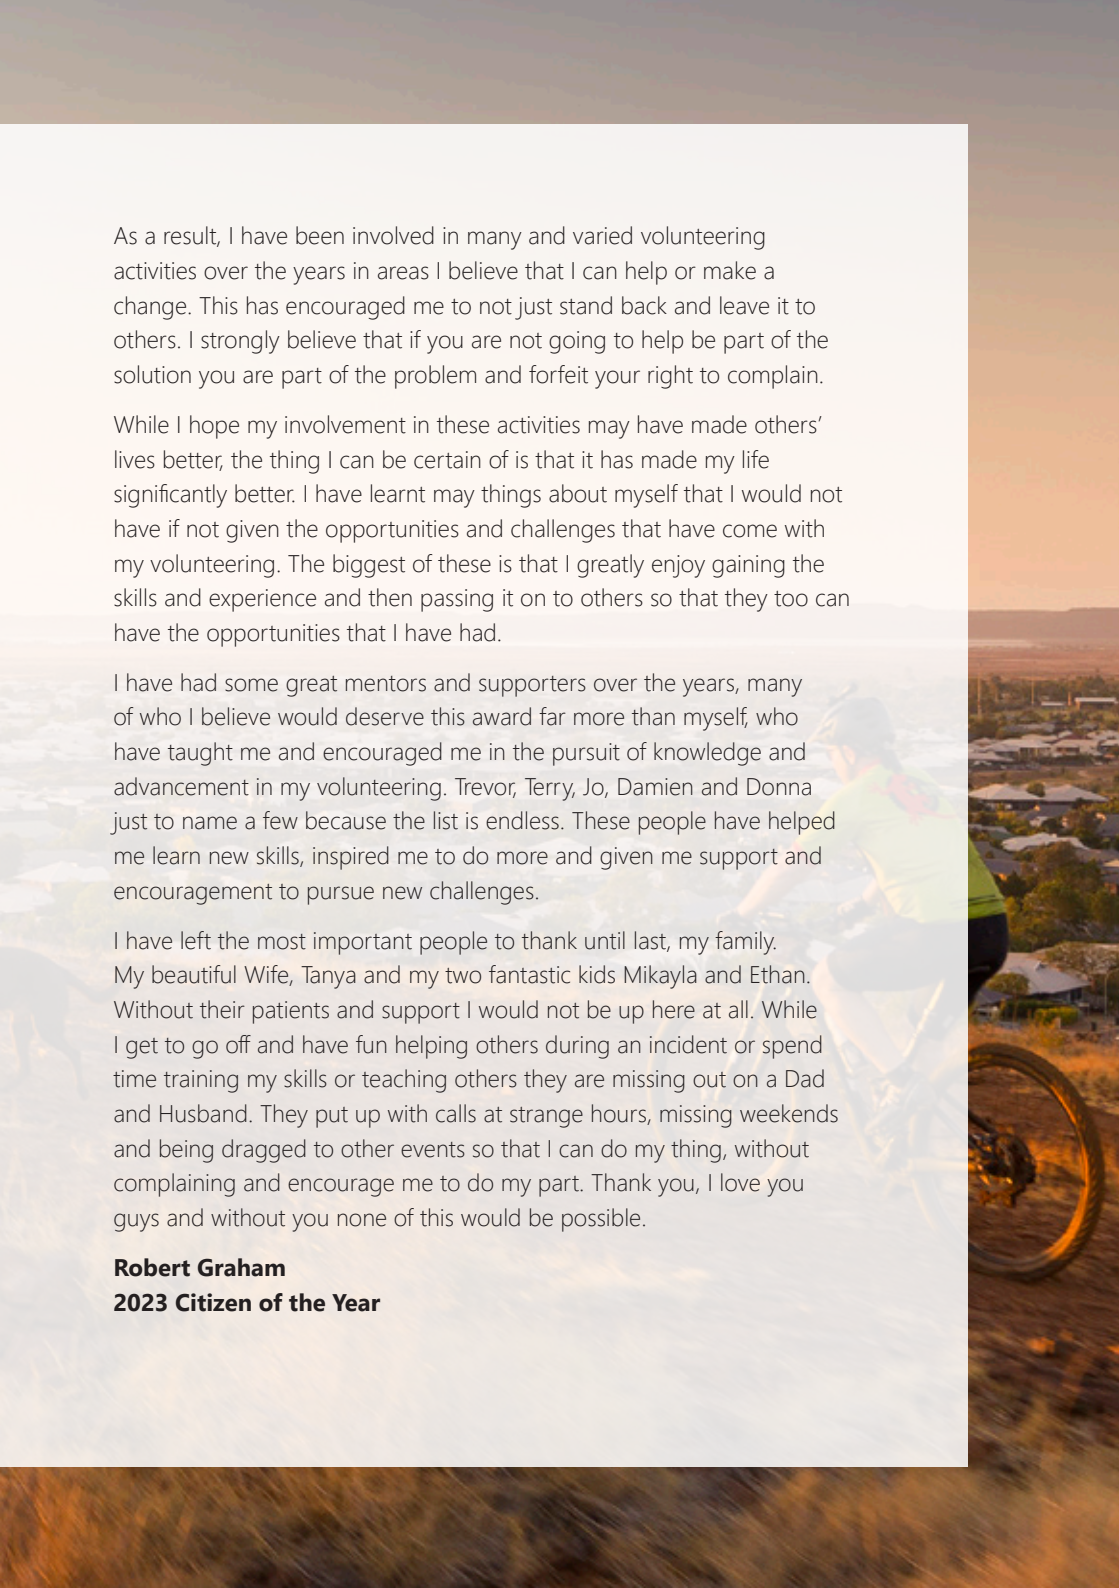

Daniel Scott
Mayor City of Karratha

A note from the 2023 Citizen of the Year, **Robert Graham**

Since being awarded the honor of the City of Karratha Citizen of the year last year I have had to think back about the things I have done over the years and concluded that volunteering has just been a way of life for me, whether I thought of it that way or not.

I was brought up in Port Hedland by two wonderful parents who were heavily involved in the community. Whether it was on the school P&C, starting sporting clubs or organizing the PCYC. This was never thought of as anything special by us but just what people had to do if we wanted these things to happen. We lived in a small town, and everyone got involved. This instilled the feeling of involvement and community at an early age.

As a result, I have been involved in many and varied volunteering activities over the years in areas I believe that I can help or make a change. This has encouraged me to not just stand back and leave it to others. I strongly believe that if you are not going to help be part of the solution you are part of the problem and forfeit your right to complain.

While I hope my involvement in these activities may have made others' lives better, the thing I can be certain of is that it has made my life significantly better. I have learnt many things about myself that I would not have if not given the opportunities and challenges that have come with my volunteering. The biggest of these is that I greatly enjoy gaining the skills and experience and then passing it on to others so that they too can have the opportunities that I have had.

I have had some great mentors and supporters over the years, many of who I believe would deserve this award far more than myself, who have taught me and encouraged me in the pursuit of knowledge and advancement in my volunteering. Trevor, Terry, Jo, Damien and Donna just to name a few because the list is endless. These people have helped me learn new skills, inspired me to do more and given me support and encouragement to pursue new challenges.

I have left the most important people to thank until last, my family. My beautiful Wife, Tanya and my two fantastic kids Mikayla and Ethan. Without their patients and support I would not be up here at all. While I get to go off and have fun helping others during an incident or spend time training my skills or teaching others they are missing out on a Dad and Husband. They put up with calls at strange hours, missing weekends and being dragged to other events so that I can do my thing, without complaining and encourage me to do my part. Thank you, I love you guys and without you none of this would be possible.

Australian National Anthem

Australians all let us rejoice,
For we are one and free;
We've golden soil and wealth for toil;
Our home is girt by sea;
Our land abounds in nature's gifts
Of beauty rich and rare;
In history's page, let every stage
Advance Australia Fair.
In joyful strains then let us sing,
Advance Australia Fair.

Beneath our radiant Southern Cross
We'll toil with hearts and hands;
To make this Commonwealth of ours
Renowned of all the lands;
For those who've come across the seas
We've boundless plains to share;
With courage let us all combine
To Advance Australia Fair.
In joyful strains then let us sing,
Advance Australia Fair.

K-Pop

K-Pop brought together the local community of Millars Well to activate the pedestrian bridge to Kats oval and collaborated on a vibrant community art project that will forever bring a pop of colour to the neighbourhood. The vibrant, inclusive artwork also included contributions from Wangaba Roebourne Art Group. Self organised, K-Pop sought out its own funding through RAC grants with the simple objective of brightening regional shared spaces to make people smile and enhance livability. The group demonstrated inclusivity, creativity, collaboration and determination to bring their vision to life. The leaders of this organisation represent an incredibly talented cross section of Karratha's community. With representation from council members, private and public sector employees, NGO employees, mums, dads, creatives - the group brought together an incredibly passionate group of locals to ripple out local pride through vibrant community artwork. They modeled that placemaking doesn't need to be the responsibility of local government alone. They modeled what active citizenship and local pride can look like in what has historically been a transient town.
