

Having lived in the City of Karratha for over 25 years, I am deeply committed to our community and its future. As a single dad raising two primary school children, I understand the everyday concerns of local families — from access to quality education and childcare to creating safe spaces where children can learn, grow, and play. My goal is to build a city that supports and uplifts every family, fostering a community where all members, regardless of their background, have access to the resources they need to thrive.

My role on the school board has provided me with valuable experience in understanding the educational landscape, helping me advocate effectively for policies that prioritize our children's well-being and development. As a sports coach and umpire, I have been privileged to work with youth, fostering teamwork, resilience, and community spirit. I see firsthand how sports and recreational activities can bring people together, and I am eager to champion initiatives that enhance these opportunities throughout our city.

In my capacity as a lecturer at the local TAFE, I engage daily with students and residents, gaining a comprehensive view of the challenges and opportunities within our region. I am passionate about developing pathways that support education, employment, and personal growth. I believe in promoting lifelong learning and making sure everyone has access to the skills and knowledge needed to succeed in a rapidly changing world.

My strong ties across various local groups and activities mean I am well-placed to listen to diverse perspectives and represent the interests of all residents. I bring a collaborative approach to leadership, focusing on finding practical solutions that address both immediate concerns and long-term goals. I am ready to serve as a local councillor who will prioritize transparency, inclusivity, and accountability while working to build a vibrant, sustainable future for our community.
