Karratha is an amazing place to raise a family.

Father of 5 girls I want to see them having the best health, education and sporting facilities available.

My focus is to make Karratha sustainable for everyone that loves the lifestyle and wants to live here, managing and maintaining at the end of the next boom cycle.

I'm passionate about enabling small businesses to have opportunities and prosper and develop alongside the major players in this town.

The last year has left many in financial stress with rising costs and interest rates it was not the time to lift rates further when we had the capacity to hold rates or reduce like Hedland.

I've been involved with many that have had to leave town due to family separation and affordability and more recently learned that many youth are left homeless due to our hostel only having 8 beds, homelessness shouldn't exist in a town like Karratha with the resources we have available.

Time to fix a missed tourist opportunity, Paint the Tank.
