

Candidates Name: Peter Long

As your Mayor I will continue to provide our City with intelligent, safe & inclusive leadership.

Liveability: My 2011 election promise was to replace the Walkington: now the exceptional REAP is a reality. I support all our arts, social and sporting events.

Infrastructure: I have facilitated our footpaths and cycleways, the Yab Trail, foreshore developments, libraries, sporting facilities, regional hubs and the Airport. Next to come will be Roebourne CBD and KLP upgrades, shade over pools and infrastructure, Dampier Marina, flights to Asia, aged care facilities & public toilets.

Housing: I lobby Govt & Resource Companies with success. I will continue this and have plans for new investment and camps.

Community: I support Aboriginal groups, multicultural & all our community organisations. I attend Roebourne, Wickham and Karratha groups & I am the only councillor who attends Elders Yarns.

Economic Diversity: I am on Boards to promote new industry including manufacturing, renewable energy, agriculture, aquaculture, hydrogen and ammonia. I meet business leaders regularly.

Environment: I am on the Environmental Sustainability Group & enabled the Enviro Strategy. I wish to establish managed Recreation Reserves around our towns & action the Strategy.

Childcare: An essential service, I was the only councillor who voted for the Walkington Circle daycare facility.

Education: I instigated the Pilbara University Centre to provide local tertiary education and hope to see the CETRI start soon.

Security: I started the NW Defence Alliance & Chaired Safe Community Partnership for many years.

Finance: As a businessperson and Audit Chair, I ensure we manage Council finances well, investing in businesses to reduce the burden on our ratepayers substantially. We have kept rate increases below inflation since 2014.

I am a full-time Mayor, always able to receive you and your ideas. I love the Pilbara and our community. **Vote 1 - Peter Long for Mayor** so I can continue to achieve for you.
